WEDNESDAY......NOVEMBER 8, 1880.

The next President and Vice President of these United States:

JAMES A. GARFIELD

CHESTER A. ARTHUR.

Wade Hampton will now cease to make a Republican campaign document, it is hoped.

The debt statement shows the decrease of the public debt during October to be \$7,103,754. The mission of the Republican party is not yet ended.

Moody and Sankey still linger in Salt Lake and are holding immense revival meetings. Polygamy suffers at their hands.

The Government has decided that Sara Bernhardt's clothes are worth \$8,000, and that she must pay \$1,800 duty upon them. Her agent says she will have to pay this out of her own pocket.

The betting in Chicago yesterday was not very lively, b: t bets of \$100 to \$25 were made on Garfield, \$100 to \$40 on decorating the houses, and including a stop to it. New York going Republican, and even bets that Indiana would increase her penses of the celebration did not exceed Republican majority over October.

The police of Minneapolis, Minn., have caught a young woman who has been masquerading in male attire as a nephew of August Belmont, of New York, for eighteen months. She has been studying medicine and making arrangements to marry ladies. She got free board for a year out of a prospective mother-in-law.

Collector Clerk, under date of Atlanta Ga. telegraphs. "I have seized within thirty days thirty illicit distilleries, two teams and about 1,000 gallons of illicit spirits. Nine of the distilleries were in the notorious Red Oak neighborhood. As soon as the stills are torn out in that section others are at once set up and the illicit work resumed."

In announcing the meeting of the Woman's Missionary Society, to take place at the Broadway Tabernacle New York this week, Dr. Howard Crosby, Chancellor of the New York University, said Monday, after commenting on the work done by the Society: "I cannot refrain, in this connection, from referring to an unholy woman of shame, who has come to this city to flaunt herself on a public stage. I hope that none of you will so degrade yourselves as to encourage her immoralities in any way."

Oscar Babcock, a farmer of Merced county, went to San Francisco on October 23d, draw \$500 and an order on a merchant at Hill's Ferry for \$2,000 from Sol Wangenheim, and left, stating that he would take the train for home that afternoon, by way of Livermore. The station at which he would leave the train is Tarlock. Since leaving Wangenheum nothing has been heard of him. Telegrams have been sent to all points where it was thought possible for him to be. He has relatives at Livermore, but has not been here. Foul play is regarded as certain. His friends are in great distress, and are leaving no effort unused to ascertain his whereabouts. He has a wife and two children.

THE MOREY LETTER.

Much capital was trumped up by the Democratic papers over that miserable lorgery, the Morey letter, and when the unprincipled forger was brought before a Court for trial and punishment, his Democratic pals fought for a continuance until after election, hoping thus to defeat the intention to show how base it was, but the Judge was not disposed to allow such nonsense and pushed the investigation. The letter has shown that it was a clumsy forgery, and it has fallen flat. The Mrs. Morey, the longlost mother of the mythical H. L. Morey, turns out to be a poor old pauper woman, who was bribed by an agent of Chairman Barnum to sign a paper declaring that she was the mother of a man named Morey. After the agent got possession of the paper, the initials 'H. L." were affixed to it. The old lady now denies that the paper contained the letters "H. L," and is corroborated by the Justice of the Feace under whose advice she signed the document, whom the agent also sought to bribe. As soon as the Justice discovered the forgery, he denounced it.

This is all there is of the boomerang. But it shows to what a desperate corner they had been driven.

Ulysses S. Grant, Jr., was married in New York on Sunday to Fannie J. Chaffee, only child of Senator J. B. Chaffee, of Colorado. The marriage was celebrated at 26 West Fifty-eighth street. An elegant residence was presented to the bride by her father. General Grant and wife, his son Jesse and wife, and Hons. Belkins and wife, J. F. Seymour, of Michigan, and wife, and D. H. Moffatt, Jr., of Denver, were the only parties present at the ceremony. The wedding tour will include a trip to Mexico, where young Grant has important interests.

Capital Punishment.

Switzerland, like a number of States of this Union where capital punishment has been abolished, comes to the conclusion that in its absence there is an undue increase of crime, and is about to re-establish the infliction of the death penalty for murder. There has been a frightful series of murders in Switzerland within a brief period of time. The list is set out in fearful array, and has convinced a majority of the cantons that imprisonment for a term of years, or even for life, is no adequate punishment for so serious a crime. In this age the taking of municipal managers are calling in the human life is so common a thing that its daily occurrence is expected, and no law can be too vigorously framed to put

Arkansas Honesty.

The majority in favor of paying the State debt is about four thousand. Some people are disposed to belittle this result by a comparison of the small majority with the heavy vote for repudiation. But there are two facts which should be considered in estimating the honesty of the people by this experience of the ballot box. First, it was well known, or at least generally believed that a large portion of the money, for which the debt was created, was stolen or squandered; and, second, the secret ballot enabled a voter to vote against paying this debt without individual disgrace. Under these circumstances, even a four-thousand majority becomes very creditable to the people of the State.

It is currently reported in New York that the Presidency of the Eric Railway and the proxies of the large English and Continental holders will be offered to D. O. Mills at the next annual election This is said to be fully in accord with Jewett interests. For some time it has been stated that an important movement Messrs. Vanderbilt and Mills have been coupled with the statements put in circulation.

Thanksgiving Proclamation.

WASHINGTON, Nov. 1.—The following was issued by the President of the United States of America:

[Proclamation.]—At no period in the history since the United States became a nation has this people had so abun-dant and so universal reasons for joy and gratitude at the favor of Almighty God, or been subject to so profound an obligation to give thanks for His loving kindness, and hambly to implore His continued care and protection. The health, wealth and prosperity throughout all our borders, peace, honor and friendship with all the world; firm and faithful adherence by the great body of our population to the principles of liberty and justice, which have been made our greatness as a nation; our wise institutions and strong frame of Government and society which will perpetuate it—for all these let the thanks of a happy and united people, as with one ascend in devout homage to the Giver of all good. I therefore recommend that on Thursday, the 25th day of November next, the people meet in their respective places of worship to make acknowledgement to Almighty God for His bounties and His protection, and to offer to Him prayers for their continu-

PRESIDENT GARFIELD!

Murrah! Murrah!

A United North Against a Solid South!

The election news received last night make it certain that Garfield and Arthur have been elected President and Vice President.

New York is for Garfield by about 40,000. The Democratic majority in the city is only 32,500, a falling off of 25 per cent, The vote for Mayor is very close.

Ohio responds nobly for her favorite son, and rolls up an increased majority. So also does Indiana. Connecticut is Republican by 2,000 or 3,000. Massachusetts elects a solid Republican Congressional delegation. Maine has redeemed herself. Pennsylvania is as true as steel. Philadelphia gives 25,-000 majority. Reports from Wisconson, Michigan and other States show large Republican gains. The outlook is that it is a united North against a Solid South. Even Georgia only gives the Hancock electors a small majority. THE LATEST.

Storey has gone Democratic for everything. The State will give Hancock a majority. The Legislature will be Democratic on joint ballot by about 8. Belknap is Judge and Cassidy goes to Congress.

The Result in Washoe.

It has been impossible to get returns from the outside precincts, but the indications are that Mr. Fair's sack did its work well, and that the Democrats have carried the county. The county ticket may be divided; the Republicans believe that Boad for Treasurer, Julien, District Attorney, Hymers, Commisbecause of the election. To-day they gioner, and Jenvey, Co. Supt. of Schools, have pulled through. But the "sack" has changed Republican into Democratic precincts, and the Italians vote going almost solid with the Democrats, has doubtless caused a Republican defeat. Brown's precinct is reported 36 majority Democratic; Glendale slightly Republican; Wadsworth Republican; Verdi Democratic; Franktown largely Democratic.

Voting.

Of course the business of yesterday was the casting of ballots. After several weeks of hard work by both parties, the actual business of the campaign was carried on with a quiet determination that showed hard work. During the morning voting was not very lively, but as the day were on a steady string of voters kept at their work and the Inspectors and Judges were kept busy. We can not expect to know the result of the election here much before to-morrow, as the tickets are long and the number

Ballous Printed.

There were at least 40,000 ballots printed for the election precincts of this county for yesterday's election. The total number of votes polled will not excell 1,600, judging from that of two years ago. At these figures there were about 25 tickets printed for every one that found its way into the ballot box. Somebody will have lots of scribbling paper for a month or two.

Quite a sensation was made yesterday by the appearance on the street of a handbill announcing that arrests had been made for buying votes in the interest of the Fair Legislative ticket, and that others were to follow.

The C. L. S. C. will meet at the residence of B. F. Leete this evening. A full attendence is desired.

The Lake case will be resumed to-day in the District Court.

MIDDLED-AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the blacker, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found and sometimes small particles of albuman will appear, or the color will be of a thin militish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty ignorant of the cause, which is the second stage of seminal weapness. Dr S, will guarantee a perfect cure in all such cases, and, a healthy restoration of the genite urinary organs.
